UMH PROPERTIES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2019 (UNAUDITED)

NOTE 1 – ORGANIZATION AND ACCOUNTING POLICIES

UMH Properties, Inc., a Maryland corporation, together with its subsidiaries (“we”, “our”, “us” or “the Company”) operates as a real estate investment trust (“REIT”) deriving its income primarily from real estate rental operations. The Company owns and operates 122 manufactured home communities containing approximately 23,000 developed homesites as of September 30, 2019. These communities are located in New Jersey, New York, Ohio, Pennsylvania, Tennessee, Indiana, Michigan and Maryland. The Company, through its wholly-owned taxable subsidiary, UMH Sales and Finance, Inc. (“S&F”), conducts manufactured home sales to residents and prospective residents in its communities. Inherent in the operations of manufactured home communities are site vacancies. S&F was established to fill these vacancies and enhance the value of the communities. The Company also owns a portfolio of REIT securities which the Company generally limits to no more than approximately 15% of its undepreciated assets. The consolidated financial statements of the Company include S&F and all of its other wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation.

The Company has elected to be taxed as a REIT under Sections 856-860 of the Internal Revenue Code (the “Code”) and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code. The Company is subject to franchise taxes in some of the states in which the Company owns property.

The interim Consolidated Financial Statements furnished herein have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) applicable to interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine months ended September 30, 2019 are not necessarily indicative of the results that may be expected for the year ending December 31, 2019. For further information, refer to the Consolidated Financial Statements and footnotes thereto included in the Company’s annual report on Form 10-K for the year ended December 31, 2018.

Use of Estimates

In preparing the consolidated financial statements in accordance with U.S. GAAP, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as contingent assets and liabilities as of the dates of the consolidated balance sheets and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ significantly from these estimates and assumptions.

Reclassifications

Certain amounts in the financial statements for the prior periods have been reclassified to conform to the statement presentation for the current periods.

Derivative Instruments and Hedging Activities

In the normal course of business, the Company is exposed to financial market risks, including interest rate risk on its variable rate debt. The Company attempts to limit these risks by following established risk management policies, procedures and strategies, including the use of derivative financial instruments. The Company's primary strategy in entering into derivative contracts is to minimize the variability that changes in interest rates could have on its future cash flows. The Company generally employs derivative instruments that effectively convert a portion of its variable rate debt to fixed rate debt. The Company does not enter into derivative instruments for speculative purposes. The Company previously entered into various interest rate swap agreements that have had the effect of fixing interest rates relative to specific mortgage loans. As of September 30, 2019, these agreements have expired and the Company does not have any interest rate swap agreements in effect.

Recently Adopted Accounting Pronouncements

In August 2018, the Securities and Exchange Commission adopted the final rule under SEC Release No. 33-10532, "Disclosure Update and Simplification", amending certain disclosure requirements that were redundant, duplicative, overlapping, outdated or superseded. In addition, the amendments expanded the disclosure requirements on the analysis of stockholders' equity for interim financial statements. Under the amendments, an analysis of changes in each caption of stockholders' equity presented in the balance sheet must be provided in a note or separate statement. The analysis should present a reconciliation of the beginning balance to the ending balance of each period for which a statement of comprehensive income is required to be filed. The first presentation of changes in stockholders' equity was included in the Form 10-Q for the quarter ended March 31, 2019.

In February 2016, the FASB issued ASU 2016-02, "Leases." ASU 2016-02 amends the existing accounting standards for lease accounting, including requiring lessees to recognize most leases on their balance sheets as a right-of-use asset and a corresponding liability. ASU 2016-02 also makes targeted changes to lessor accounting. The standard requires a modified retrospective transition approach for all leases existing at, or entered into after, the date of initial application, with an option to use certain transition relief. ASU 2016-02 is effective for annual reporting periods beginning after December 15, 2018. In July 2018, the FASB issued ASU No. 2018-10, "Codification Improvements to Topic 842, Leases", which included amendments to clarify certain aspects of the new lease standard. In July 2018, the FASB also issued ASU No. 2018-11, "Leases (Topic 842) – Target Improvements." ASU No. 2018-11 provides a new transition method and a practical expedient to separating contract components as required by ASU 2016-02. Under ASU 2018-11, an entity applying the new lease accounting standard may record a cumulative adjustment to the opening balance of undistributed income (accumulated deficit) in the period of adoption, instead of having to restate comparative results, as initially required. Additionally, ASU No. 2018-11 provide lessors with a practical expedient, by class of underlying asset, to not separate non-lease components from the associated lease component and, instead, to account for those components as a single component if the non-lease components otherwise would be accounted for under the new revenue guidance if both 1. the timing and pattern of transfer of the non-lease component(s) and associated lease component are the same (instead of the timing and pattern of revenue recognition, as proposed); and 2. the lease component, if accounted for separately, would be classified as an operating lease. In December 2018, the FASB issued ASU 2018-20, "Leases (Topic 842) – Narrow-Scope Improvements for Lessors." ASU 2018-20 allow lessors to make an accounting policy election not to evaluate whether sales taxes and similar taxes imposed by a governmental authority on a specific lease revenue-producing transaction are the primary obligation of the lessor as owner of the underlying leased asset. The amendments also require a lessor to exclude lessor costs paid directly by a lessee to third parties on the lessor's behalf from variable payments and include lessor costs that are paid by the lessor and reimbursed by the lessee in the measurement of variable lease revenue and the associated expense. In addition, the amendments clarify that when lessors allocate variable payments to lease and non-lease components they are required to follow the recognition guidance in the new lease standard for the lease component and other applicable guidance, such as the new revenue standard, for the non-lease component.

The Company adopted this standard effective January 1, 2019, and it did not have a material impact on the Company's financial position, results of operations or cash flows. Our primary source of revenue is generated from lease agreements for our sites and homes, where we are the lessor. The non-lease components of our lease agreements consist primarily of utility reimbursements. We have elected the lessor practical expedient to combine the lease and non-lease components. We are the lessee in other arrangements, primarily for our corporate office and a ground lease at one community. For leases with a term greater than one year, right-of-use assets and corresponding liabilities are included on the Consolidated Balance Sheet. The right-of-use asset and corresponding lease liabilities are measured as the estimated present value of minimum lease payments at the commencement of the lease agreement and discounted by our borrowing rate. As of September 30, 2019, the right-of-use assets and corresponding lease liabilities of \$2,750,245 is included in Prepaid Expenses and Other Assets and Accrued Liabilities and Deposits on the Consolidated Balance Sheets. Future minimum lease payments under these leases over the remaining lease terms are as follows:

2019	\$	91,313
2020		369,135
2021		371,076
2022		212,171
2023		104,662
Thereafter		7,954,333
Total Lease Payments	\$	<u>9,102,690</u>

The weighted average remaining lease term for these leases is 165.0 years. The right of use assets and lease liabilities was calculated using an interest rate of 5%. Additionally, for all leases, we have elected the package of practical expedients, which permits the Company not to reassess expired or existing contracts containing a lease, the lease classification for expired or existing contracts, and measurement of initial direct costs for any existing leases.

In November 2016, the FASB issued ASU 2016-18 "Statement of Cash Flows (Topic 230): Restricted Cash." ASU 2016-18 requires inclusion of restricted cash and restricted cash equivalents with cash and cash equivalents when reconciling the beginning of period and end of period total amounts shown on the statement of cash flows. The guidance is effective for annual periods beginning after December 15, 2017, including interim periods within that reporting period. The Company adopted this standard effective January 1, 2018. The Company's restricted cash consists of amounts primarily held in deposit for tax, insurance and repair escrows held by lenders in accordance with certain debt agreements. Restricted cash is included in Prepaid Expenses and Other Assets on the Consolidated Balance Sheets. Previously, changes in restricted cash were reported on the Consolidated Statements of Cash Flows as operating, investing or financing activities based on the nature of the underlying activity.

The following table reconciles beginning of period and end of period balances of cash, cash equivalents and restricted cash for the periods shown:

	<u>9/30/19</u>	<u>12/31/18</u>	<u>9/30/18</u>	<u>12/31/17</u>
Cash and Cash Equivalents	\$ 11,111,055	\$ 7,433,470	\$ 8,879,883	\$ 23,242,090
Restricted Cash	7,056,382	5,343,941	5,893,932	4,649,159
Cash, Cash Equivalents And Restricted Cash	<u>\$ 18,167,437</u>	<u>\$ 12,777,411</u>	<u>\$ 14,773,815</u>	<u>\$ 27,891,249</u>

In January 2016, the FASB issued ASU 2016-01, "Financial Instruments – Overall: Recognition and Measurement of Financial Assets and Financial Liabilities." ASU 2016-01 requires equity investments (except those accounted for under the equity method of accounting, or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income, requires public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes, requires separate presentation of financial assets and financial liabilities by measurement category and form of financial asset, and eliminates the requirement for public business entities to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost. ASU 2016-01 is effective for annual reporting periods, including interim reporting periods within those periods, beginning after December 15, 2017. The Company adopted this standard effective January 1, 2018. The Company previously classified its marketable securities as available-for-sale and carried at fair value with unrealized holding gains and losses excluded from earnings and reported as a separate component of Shareholders' Equity until realized. The change in the unrealized net holding gains (losses) was reflected in the Company's Comprehensive Income (Loss). As a result of adoption, these securities will continue to be measured at fair value; however, the change in the unrealized net holding gains and losses is now recognized through net income. As of January 1, 2018, unrealized net holding gains of \$11,519,582 were reclassified to beginning undistributed income (accumulated deficit) to recognize the unrealized gains previously recorded in "accumulated other comprehensive income" on our consolidated balance sheets.

In May 2014, the FASB issued ASU 2014-09 “Revenue from Contracts with Customers (Topic 606)” (ASC 606). The objective of this amendment is to establish a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and will supersede most of the existing revenue recognition guidance, including industry-specific guidance. The core principle is that a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In applying this amendment, companies will perform a five-step analysis of transactions to determine when and how revenue is recognized. This amendment applies to all contracts with customers except those that are within the scope of other topics in the FASB ASC. An entity should apply the amendments using either the full retrospective approach or retrospectively with a cumulative effect of initially applying the amendments recognized at the date of initial application. In July 2015, the FASB issued ASU 2015-14 which deferred the effective date of ASU 2014-09 by one year to annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. The Company adopted this standard effective January 1, 2018. For transactions in the scope of ASU 2014-09, we recognize revenue when control of goods or services transfers to the customer, in the amount that we expect to receive for the transfer of goods or provision of services. The adoption of ASU 2014-09 did not result in any change to our accounting policies for revenue recognition. Accordingly, retrospective application to prior periods or a cumulative catch-up adjustment was unnecessary.

Our primary source of revenue is generated from lease agreements for our sites and homes. Resident leases are generally for one-year or month-to-month terms and are renewable by mutual agreement from us and the resident, or in some cases, as provided by jurisdictional statute. The lease component of these agreements is accounted for under ASC 842 “Leases.” The non-lease components of our lease agreements consist primarily of utility reimbursements, which are accounted for with the site lease as a single lease under ASC 842.

Prior to the adoption of ASC 606, sales of manufactured homes were recognized under ASC 605 “Revenue Recognition” since these homes are not permanent fixtures or improvements to the underlying real estate. In accordance with the core principle of ASC 606, we recognize revenue from home sales at the time of closing when control of the home transfers to the customer. After closing of the sale transaction, we have no remaining performance obligation.

Interest income is primarily from notes receivables for the previous sales of manufactured homes. Interest income on these receivables is accrued based on the unpaid principal balances of the underlying loans on a level yield basis over the life of the loans. Interest income is not in the scope of ASC 606.

Dividend income and gain on sales of marketable securities, net are from our investments in marketable securities and are presented separately but are not in the scope of ASC 606.

Other income primarily consists of brokerage commissions for arranging for the sale of a home by a third party, service and marketing agreements with cable providers, and in 2017 included an upfront oil and gas bonus payment. This income is recognized when the transactions are completed and our performance obligations have been fulfilled.

As of September 30, 2019 and 2018, the Company had notes receivable of \$35,370,466 and \$28,094,814, respectively. Notes receivables are presented as a component of Notes and Other Receivables, net on our Consolidated Balance Sheets. These receivables represent balances owed to us for previously completed performance obligations for sales of manufactured homes. Due to the nature of our revenue from contracts with customers, we do not have material contract assets or liabilities that fall under the scope of ASC 606.

Other Recent Accounting Pronouncements

In September 2016, the FASB issued ASU No. 2016-13, “Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments.” ASU 2016-13 requires that entities use a new forward looking “expected loss” model that generally will result in the earlier recognition of allowance for credit losses. The measurement of expected credit losses is based upon historical experience, current conditions, and reasonable and supportable forecasts that affect the collectability of the reported amount. ASU No. 2016-13 is effective for annual reporting periods, including interim reporting periods within those periods, beginning after December 15, 2019. The Company is currently evaluating the potential impact this standard may have on the consolidated financial statements.

Management does not believe that any other recently issued, but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying Consolidated Financial Statements.

NOTE 2 – NET INCOME (LOSS) PER SHARE

Basic Net Income (Loss) per Share is calculated by dividing Net Income (Loss) by the weighted average shares outstanding for the period. Diluted Net Income (Loss) per Share is calculated by dividing Net Income (Loss) by the weighted average number of common shares outstanding plus the weighted average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method. For the three months ended September 30, 2019, common stock equivalents resulting from employee stock options to purchase 1,068,600 shares of common stock amounted to 240,403 shares, which were included in the computation of Diluted Net Income (Loss) per Share. For the nine months ended September 30, 2019, common stock equivalents resulting from employee stock options to purchase 1,068,600 shares of common stock amounted to 238,151 shares, which were included in the computation of Diluted Net Income (Loss) per Share. For the three and nine months ended September 30, 2018, employee stock options to purchase 2,227,600 shares of common stock were excluded from the computation of Diluted Net Income (Loss) per Share as their effect would be anti-dilutive.

NOTE 3 – INVESTMENT PROPERTY AND EQUIPMENT

Acquisitions

On July 3, 2019, the Company acquired Friendly Village, located in Perrysburg, Ohio, for approximately \$19,386,000. This all-age community contains a total of 824 developed homesites that are situated on approximately 101 total acres. At the date of acquisition, the average occupancy for this community was approximately 46%. In conjunction with this acquisition, the Company assumed a mortgage of approximately \$7,300,000 on this property (See Note 5).

On July 30, 2019, the Company acquired two communities, New Colony and 51 Estates, located in Pennsylvania, for approximately \$11,650,000. These communities contain a total of 285 developed homesites that are situated on approximately 60 acres. At the date of acquisition, the average occupancy for these communities was approximately 76%.

On August 27, 2019, the Company acquired Northtowne Meadows, located in Erie, Michigan, for approximately \$25,201,000. This community contains a total of 386 developed homesites that are situated on approximately 85 total acres. At the date of acquisition, the average occupancy for this community was approximately 88%. In conjunction with this acquisition, the Company assumed a mortgage of approximately \$12,100,000 on this property (See Note 5).

These acquisitions have been accounted for utilizing the acquisition method of accounting in accordance with ASC 805, Business Combinations, and accordingly, the results of the acquired assets are included in the statements of income (loss) from the date of acquisition. The following table summarizes the estimated fair value of the assets acquired, including transaction costs of approximately \$606,000, for the nine months ended September 30, 2019:

	<u>At Acquisition Date</u>
Assets Acquired:	
Land	\$ 4,185,790
Depreciable Property	52,529,669
Notes Receivable and Other	127,286
Total Assets Acquired	\$ 56,842,745

See Note 12 for the Unaudited Pro Forma Financial Information relating to these acquisitions.

NOTE 4 – MARKETABLE SECURITIES

The Company's marketable securities consists primarily of marketable common and preferred stock of other REITs with a fair value of \$116,437,477 as of September 30, 2019. The Company generally limits its investment in marketable securities to no more than approximately 15% of its undepreciated assets. The REIT securities portfolio provides the Company with additional liquidity and additional income and serves as a proxy for real estate when more favorable risk adjusted returns are not available.

On January 1, 2018, the Company adopted ASU 2016-01, which requires changes in the fair value of our marketable securities to be recorded in current period earnings. Previously, changes in the fair value of marketable securities were recognized in “Accumulated Other Comprehensive Income” on our Consolidated Balance Sheets. As a result, on January 1, 2018 the Company recorded an increase to beginning undistributed income (accumulated deficit) of \$11,519,582 to recognize the unrealized gains previously recorded in “Accumulated Other Comprehensive Income” on our Consolidated Balance Sheets. Subsequent changes in the fair value of the Company’s marketable securities will be recorded to “Increase (Decrease) in Fair Value of Marketable Securities” on our Consolidated Statements of Income (Loss).

During the nine months ended September 30, 2019, the Company made purchases of \$1,363,908 in marketable securities. Of this amount, the Company made total purchases of 96,129 common shares of Monmouth Real Estate Investment Corporation (“MREIC”), a related REIT, through MREIC’s Dividend Reinvestment and Stock Purchase Plan for a total cost of \$1,263,079 or weighted average cost of \$13.14 per share. The Company owned a total of 2,542,182 MREIC common shares as of September 30, 2019 at a total cost of \$23,555,487 and a fair value of \$36,632,846.

As of September 30, 2019, the Company had total net unrealized losses of \$(24,677,981) in its REIT securities portfolio. For the three and nine months ended September 30, 2019, the Company recorded a \$9,234,252 increase and a \$15,477,833 increase, respectively, in the fair value of these marketable securities. The Company held thirteen securities that had unrealized losses as of September 30, 2019. The Company normally holds REIT securities long-term and has the ability and intent to hold these securities to recovery.

NOTE 5 – LOANS AND MORTGAGES PAYABLE

Unsecured Line of Credit

On November 29, 2018, the Company entered into a First Amendment to Amended and Restated Credit Agreement (the “Amendment”) to expand and extend its existing unsecured revolving credit facility (the “Facility”). The Facility is syndicated with two banks led by BMO Capital Markets Corp. (“BMO”), as sole lead arranger and sole book runner, with Bank of Montreal as administrative agent, and includes JPMorgan Chase Bank, N.A. (“J.P. Morgan”) as the sole syndication agent. The Amendment provided for an increase from \$50 million in available borrowings to \$75 million in available borrowings with a \$50 million accordion feature, bringing the total potential availability up to \$125 million, subject to certain conditions including obtaining commitments from additional lenders. The Amendment also extended the maturity date of the Facility from March 27, 2020 to November 29, 2022, with a one-year extension available at the Company’s option, subject to certain conditions including payment of an extension fee. Availability under the Facility is limited to 60% of the value of the unencumbered communities which the Company has placed in the Facility’s unencumbered asset pool (“Borrowing Base”). The Amendment increased the value of the Borrowing Base communities by reducing the capitalization rate applied to the Net Operating Income (“NOI”) generated by the communities in the Borrowing Base from 7.5% to 7.0%. As of September 30, 2019, \$5,000,000 was outstanding on this Facility.

Loans Payable

Loans Payable includes unamortized debt issuance costs of \$359,692 and \$432,126 at September 30, 2019 and December 31, 2018, respectively. The weighted average interest rate was 3.8% and 4.2% at September 30, 2019 and December 31, 2018, respectively, not including the effect of unamortized debt issuance costs. At September 30, 2019, \$40,606,862 was outstanding on the margin loan at an interest rate of 2.5%.

On April 30, 2019, the Company expanded its revolving line of credit for the financing of homes from \$10 million to \$15 million.

Mortgages Payable

Such estimates do not include any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. All of the Company's Marketable Securities have quoted market prices and traded in active markets and are therefore classified in Level 1 of the fair value hierarchy.

The fair value of Cash and Cash Equivalents and Notes Receivable approximates their current carrying amounts since all such items are short-term in nature. The fair value of variable rate Mortgages Payable and Loans Payable approximate their current carrying amounts since such amounts payable are at approximately a weighted-average current market rate of interest. From time to time, the Company may be subject to claims and litigation in the ordinary course of business. Management does not believe that any such claims or litigation will have a material adverse effect on the financial position or results of operations.

The Company has an agreement with 21st Mortgage Corporation (“21st Mortgage”) under which 21st Mortgage can provide financing for home purchasers in the Company’s communities. The Company does not receive referral fees or other cash compensation under the agreement. If 21st Mortgage makes loans to purchasers and those purchasers default on their loans and 21st Mortgage repossesses the homes securing such loans, the Company has agreed to purchase from 21st Mortgage each such repossessed home for a price equal to 80% to 95% of the amount under each such loan, subject to certain adjustments. This agreement may be terminated by either party with 30 days written notice. As of September 30, 2019, the total loan balance under this agreement was approximately \$2.6 million. Additionally, 21st Mortgage previously made loans to purchasers in certain communities we acquired. In conjunction with these acquisitions, the Company has agreed to purchase from 21st Mortgage each repossessed home, if those purchasers default on their loans. The purchase price ranges from 55% to 100% of the amount under each such loan, subject to certain adjustments. Neither the Company, nor S&F, receive referral fees or other cash compensation under the agreement. Customer loan applications are initially submitted to Triad for consideration by Triad’s portfolio of outside lenders. If a loan application does not meet the criteria for outside financing, the application is then considered for financing under the COP Program. If the loan is approved under the COP Program, then it is originated by Triad, assigned to S&F and then assigned by S&F to the Company. Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Overview

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and footnotes thereto included elsewhere herein and in the Company’s annual report on Form 10-K for the year ended December 31, 2018.

The Company is a self-administered, self-managed Real Estate Investment Trust (“REIT”) with headquarters in Freehold, New Jersey. The Company’s primary business is the ownership and operation of manufactured home communities which includes leasing manufactured home spaces on an annual or month-to-month basis to residential manufactured homeowners. The Company also leases homes to residents and, through its taxable REIT subsidiary, UMH Sales and Finance, Inc. (“S&F”), sells and finances the sale of manufactured homes to qualified residents and prospective residents of our communities.

As of September 30, 2019, the Company owned and operated 122 manufactured home communities containing approximately 23,000 developed homesites. These communities are located in New Jersey, New York, Ohio, Pennsylvania, Tennessee, Indiana, Michigan and Maryland.

The Company earns income from the operation of its manufactured home communities, leasing of manufactured homesites, the rental of manufactured homes, the sale and finance of manufactured homes, the brokering of home sales, and from appreciation in the values of the manufactured home communities and vacant land owned by the Company. The Company also invests in marketable securities of other REITs which the Company generally limits to no more than approximately 15% of its undepreciated assets.

The Company believes that its capital structure, which allows for the ownership of assets using a balanced combination of equity obtained through the issuance of common stock, preferred stock and debt, will enhance shareholder returns as the properties appreciate over time.

The Company intends to continue to increase its real estate investments. Our business plan includes acquiring communities that yield in excess of our cost of funds and then investing in physical improvements, including adding rental homes onto otherwise vacant sites. This has resulted in increased occupancy rates and improved operating results. For the three months ended September 30, 2019, total income increased 12% from the prior year period and Community Net Operating Income (“NOI”), as defined below, increased 11%. For the nine months ended September 30, 2019, total income increased 14% from the prior year period and Community NOI increased 8%. Same property occupancy, which includes communities owned and operated as of January 1, 2018, increased by 170 basis points to 84.0% over the prior year period. Same property NOI for the three months ended September 30, 2019 increased 6.0% over the prior year period. We have been positioning ourselves for future growth and will continue to seek opportunistic investments. There is no assurance that the Company can continue to buy existing manufactured home communities that meet the requirements of the business plan or that the demand for rental homes will continue in the future.

Sales of manufactured homes decreased 7% for the three months ended September 30, 2019 as compared to the prior year period, primarily due to timing of closings and a strong third quarter 2018. For the nine months ended September 30, 2019, sales increased 25% from the prior year period. Demand for housing remains healthy, due to improvements in the economy, sustained wage and job growth and still favorable interest rates. Conventional single-family home prices continue their rise supported by low inventories and increasing sales. As household formation strengthens and for-sale inventory remains limited, a large share of housing demand will be looking at alternative forms of housing. Our property type offers substantial comparative value that should result in increased demand.

The macro-economic environment and current housing fundamentals continue to favor home rentals. Rental homes in a manufactured home community allow the resident to obtain the efficiencies of factory-built housing and the amenities of community living for less than the cost of other forms of affordable housing. We continue to see strong demand for rental homes. We have added an additional 768 rental homes, including 188 acquired through acquisitions, during the first nine months of 2019. This brings the total number of rental homes to approximately 7,300 rental homes, or 31.9% of total sites. Occupied rental homes represent approximately 35.5% of total occupied sites at quarter end. Occupancy in rental homes continues to be strong and is at 92.4% as of September 30, 2019. We compare favorably with other types of rental housing, including apartments, and we will continue to allocate capital to rental home purchases, as demand dictates. We anticipate adding a total of approximately 800 rental homes in 2019, not including those acquired through acquisitions.

During the nine months ended September 30, 2019, the Company acquired four all-age communities containing a total of 1,495 homesites on 246 acres for an aggregate purchase price of approximately \$56,237,000.

The following is a summary of the communities acquired as of September 30, 2019:

See PART I, Item 1 – Business in the Company’s Annual Report on Form 10-K for the year ended December 31, 2018 for a more complete discussion of the economic and industry-wide factors relevant to the Company and the opportunities, challenges and risks on which the Company is focused.

Significant Accounting Policies and Estimates

The discussion and analysis of the Company’s financial condition and results of operations are based upon the Company’s Consolidated Financial Statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). The preparation of these Consolidated Financial Statements requires management to make estimates and judgments that affect the reported amounts of Assets and Liabilities, Revenues and Expenses, and related disclosure of contingent Assets and Liabilities at the date of the Company’s Consolidated Financial Statements. Actual results may differ from these estimates under different assumptions or conditions.

On a regular basis, management evaluates our assumptions, judgments and estimates. Management believes there have been no material changes to the items that we disclosed as our significant accounting policies and estimates under Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” in our Annual Report on Form 10-K for the year ended December 31, 2018.

Supplemental Measures

In addition to the results reported in accordance with GAAP, management’s discussion and analysis of financial condition and results of operations include certain non-GAAP financial measures that in management’s view of the business we believe are meaningful as they allow the investor the ability to understand key operating details of our business both with and without regard to certain accounting conventions or items that may not always be indicative of recurring annual cash flow of the portfolio. These non-GAAP financial measures as determined and presented by us may not be comparable to related or similarly titled measures reported by other companies, and include Community NOI, Funds from Operations Attributable to Common Shareholders (“FFO”), and Normalized Funds from Operations Attributable to Common Shareholders (“Normalized FFO”).

We define Community NOI as rental and related income less community operating expenses such as real estate taxes, repairs and maintenance, community salaries, utilities, insurance and other expenses. We believe that Community NOI is helpful to investors and analysts as a direct measure of the actual operating results of our manufactured home communities, rather than our Company overall. Community NOI should not be considered a substitute for the reported results prepared in accordance with GAAP. Community NOI should not be considered as an alternative to net income (loss) as an indicator of our financial performance, or to cash flows as a measure of liquidity; nor is it indicative of funds available for our cash needs, including our ability to make cash distributions.

The Company's Community NOI for the three and nine months ended September 30, 2019 and 2018 is calculated as follows:

	Three Months Ended		Nine Months Ended	
	9/30/19	9/30/18	9/30/19	9/30/18
Rental and Related Income	\$ 32,947,667	\$ 28,728,078	\$ 94,979,807	\$ 84,236,326
Less: Community Operating Expenses	15,771,602	13,288,715	45,885,560	38,758,711
Community NOI	<u>\$ 17,176,065</u>	<u>\$ 15,439,363</u>	<u>\$ 49,094,247</u>	<u>\$ 45,477,615</u>

We also assess and measure our overall operating results based upon an industry performance measure referred to as Funds from Operations Attributable to Common Shareholders ("FFO"), which management believes is a useful indicator of our operating performance. FFO is used by industry analysts and investors as a supplemental operating performance measure of a REIT. FFO, as defined by The National Association of Real Estate Investment Trusts ("NAREIT"), represents net income (loss) attributable to common shareholders, as defined by accounting principles generally accepted in the United States of America ("U.S. GAAP"), excluding extraordinary items, as defined under U.S. GAAP, gains or losses from sales of previously depreciated real estate assets, impairment charges related to depreciable real estate assets, and the change in the fair value of marketable securities plus certain non-cash items such as real estate asset depreciation and amortization. Included in the NAREIT FFO White Paper - 2018 Restatement, is an option pertaining to assets incidental to our main business in the calculation of NAREIT FFO to make an election to include or exclude gains and losses on the sale of these assets, such as marketable equity securities, and include or exclude mark-to-market changes in the value recognized on these marketable equity securities. In conjunction with our adoption of the FFO White Paper - 2018 Restatement, for all periods presented, we have elected to exclude the change in the fair value of marketable securities from our FFO calculation. Prior to the adoption of the FFO White Paper - 2018 Restatement, we utilized Core Funds from Operations (Core FFO), which we defined as FFO, excluding the change in the fair value of marketable securities. NAREIT created FFO as a non-U.S. GAAP supplemental measure of REIT operating performance. We define Normalized Funds from Operations Attributable to Common Shareholders ("Normalized FFO"), as FFO, excluding gains and losses realized on marketable securities investments and certain one-time charges. FFO and Normalized FFO should be considered as supplemental measures of operating performance used by REITs. FFO and Normalized FFO exclude historical cost depreciation as an expense and may facilitate the comparison of REITs which have a different cost basis. However, other REITs may use different methodologies to calculate FFO and Normalized FFO and, accordingly, our FFO and Normalized FFO may not be comparable to certain other REITs. The items excluded from FFO and Normalized FFO are significant components in understanding the Company's financial performance.

FFO and Normalized FFO (i) do not represent Cash Flow from Operations as defined by U.S. GAAP; (ii) should not be considered as alternatives to net income (loss) as a measure of operating performance or to cash flows from operating, investing and financing activities; and (iii) are not alternatives to cash flow as a measure of liquidity.

The reconciliation of the Company's U.S. GAAP Net Income (Loss) to the Company's FFO and Normalized FFO for the three and nine months ended September 30, 2019 and 2018 are calculated as follows:

	Three Months Ended		Nine Months Ended

Changes In Results Of Operations

Rental and Related Income increased 15% from \$28,728,078 for the three months ended September 30, 2018 to \$32,947,667 for the three months ended September 30, 2019. Rental and Related Income increased 13% from \$84,236,326 for the nine months ended September 30, 2018 to \$94,979,807 for the nine months ended September 30, 2019. These increases were primarily due to the acquisitions made during 2018 and 2019, as well as increases in rental rates, same property occupancy and additional rental homes. The Company has been raising rental rates by approximately 3% to 5% annually at most communities. Same property occupancy has increased 170 basis points from 82.3% as of September 30, 2018 to 84.0% at quarter-end. Occupied rental homes increased 16% from approximately 5,800 homes at September 30, 2018 to 6,700 homes at September 30, 2019.

Community Operating Expenses increased 19% from \$13,288,715 for the three months ended September 30, 2018 to \$15,771,602 for the three months ended September 30, 2019. Community Operating Expenses increased 18% from \$38,758,711 for the nine months ended September 30, 2018 to \$45,885,560 for the nine months ended September 30, 2019. These increases were primarily due to an increase in water and sewer costs, tree removal, rental home expenses and payroll and personnel costs primarily from the acquisitions made during 2018 and 2019 and the increase in rental homes. In addition, for the three months ended September 30, 2019, we incurred emergency windstorm tree removal expenses totaling \$126,000. Also included in Community Operating Expenses for the nine months ended September 30, 2019, was a one-time settlement of \$375,250 for a utility billing dispute over a prior 10-year period.

Community NOI increased 11% from \$15,439,363 for the three months ended September 30, 2018 to \$17,176,065 for the three months ended September 30, 2019. Community NOI increased 8% from \$45,477,615 for the nine months ended September 30, 2018 to \$49,094,247 for the nine months ended September 30, 2019. These increases were primarily due to the acquisitions during 2018 and 2019, and increases in rental rates, occupancy and rental homes. The Company's Operating Expense Ratio (defined as Community Operating Expenses divided by Rental and Related Income) was 46.3% and 47.5%, excluding non-recurring operating expenses, for the three months ended September 30, 2018 and 2019, respectively. The Company's Operating Expense Ratio was 46.0% and 47.8%, excluding non-recurring operating expenses, for the nine months ended September 30, 2018 and 2019, respectively. Many recently acquired communities have deferred maintenance requiring higher than normal expenditures in the first few years of ownership. Because most of the community expenses consist of fixed costs, as occupancy rates increase, these expense ratios are expected to continue to improve. Since the Company has the ability to increase its rental rates annually, increasing costs due to inflation and changing prices have generally not had a material effect on revenues and income from continuing operations.

Sales of manufactured homes decreased 7% from \$4,719,036 for the three months ended September 30, 2018 to \$4,381,223 for the three months ended September 30, 2019. This decrease was primarily due to delays in closing certain transactions, as well as a strong third quarter 2018. Sales of manufactured homes increased 25% from \$11,105,302 for the nine months ended September 30, 2018 to \$13,866,552 for the nine months ended September 30, 2019. The Company has seen a 13% increase in the number of homes sold from 204 homes sold for the nine months ended September 30, 2018 to 230 homes sold for the nine months ended September 30, 2019. Cost of sales of manufactured homes amounted to \$3,271,260 and \$3,512,705 for the three months ended September 30, 2019 and 2018, respectively. Cost of sales of manufactured homes amounted to \$10,117,068 and \$8,406,701 for the nine months ended September 30, 2019 and 2018, respectively. The gross profit percentage was 25% and 26% for the three months ended September 30, 2019 and 2018, respectively. The gross profit percentage was 27% and 24% for the nine months ended September 30, 2019 and 2018, respectively. Selling expenses, which includes salaries, commissions, advertising and other miscellaneous expenses, amounted to \$1,374,932 and \$1,024,188 for the three months ended September 30, 2019 and 2018, respectively. Selling expenses amounted to \$3,802,894 and \$2,913,504 for the nine months ended September 30, 2019 and 2018, respectively. Loss from the sales operations (defined as sales of manufactured homes less cost of sales of manufactured homes less selling expenses less interest on the financing of inventory) amounted to \$317,034, or 7% of total sales, and \$69,963, or 1% of total sales, for the three months ended September 30, 2019 and 2018, respectively. Loss from the sales operations amounted to \$241,532, or 2% of total sales, and \$650,924, or 6% of total sales, for the nine months ended September 30, 2019 and 2018, respectively. Many of the costs associated with sales, such as salaries, and to an extent, advertising and promotion, are fixed.

The U.S. homeownership rate was 64.8% in the third quarter of 2019, according to the U.S. Census. This is down from 69.2% at its peak at the end of 2004. Conventional home prices continue to rise. The inherent affordability of our property type becomes more and more apparent which should result in increased demand. The Company continues to be optimistic about future sales and rental prospects given the fundamental need for affordable housing. The Company believes that sales of new homes produces new rental revenue and is an investment in the upgrading of our communities.

General and Administrative Expenses remained relatively stable for the three and nine months ended September 30, 2019, compared to the three and nine months ended September 30, 2018. General and Administrative expenses, excluding non-recurring operating expenses, as a percentage of gross revenue (Total Income plus Interest, Dividend and Other Income) was 6.2% and 6.7% for the three and nine months ended September 30, 2019, respectively, compared to 6.9% and 7.3% for the three and nine months ended September 30, 2018, respectively.

Depreciation Expense increased 17% from \$8,051,627 for the three months ended September 30, 2018 to \$9,390,236 for the three months ended September 30, 2019. Depreciation Expense increased 15% from \$23,410,519 for the nine months ended September 30, 2018 to \$27,009,888 for the nine months ended September 30, 2019. This increase was primarily due to the acquisitions and the increase in rental homes during 2018 and 2019.

Interest Income increased 15% from \$563,549 for the three months ended September 30, 2018 to \$650,767 for the three months ended September 30, 2019. Interest Income increased 14% from \$1,569,955 for the nine months ended September 30, 2018 to \$1,787,390 for the nine months ended September 30, 2019. These increases were primarily due to an increase in the average balance of notes receivable. The average balance for the nine months ended September 30, 2019 and 2018 was approximately \$32.6 million and \$25.3 million, respectively.

Dividend Income decreased 31% from \$2,704,255 for the three months ended September 30, 2018 to \$1,858,831 for the three months ended September 30, 2019. Dividend Income decreased 25% from \$7,603,575 for the nine months ended September 30, 2018 to \$5,734,390 for the nine months ended September 30, 2019. These decreases were primarily due to a reduction in dividends from two securities. It is the Company's intent to hold its marketable securities long-term. Dividends received from our marketable securities investments were at a weighted average yield of approximately 6.3% and 8.2% at September 30, 2019 and 2018, respectively, and continue to meet our expectations.

Increase (Decrease) in Fair Value of Marketable Securities increased from an unrealized loss of \$(10,487,430) for the three months ended September 30, 2018 to an unrealized gain of \$9,234,252 for the three months ended September 30, 2019. Increase (Decrease) in Fair Value of Marketable Securities increased from an unrealized loss of \$(19,762,579) for the nine months ended September 30, 2018 to an unrealized gain of \$15,477,833 for the nine months ended September 30, 2019. As of September 30, 2019, the Company had total net unrealized losses of \$24,677,981 in its REIT securities portfolio.

Interest Expense, including Amortization of Financing Costs, increased 3% from \$4,247,855 for the three months ended September 30, 2018 to \$4,395,806 for the three months ended September 30, 2019. Interest Expense increased 13% from \$11,795,315 for the nine months ended September 30, 2018 to \$13,288,994 for the nine months ended September 30, 2019. The weighted average balance of our mortgages payable increased from approximately \$309 million for the nine months ended September 30, 2018 to approximately \$353 million for the nine months ended September 30, 2019.

Changes in Financial Condition

Total Investment Property and Equipment increased 11% or \$102,860,738 during the nine months ended September 30, 2019. The Company added 768 rental homes to its communities. The Company's occupancy rate on its rental homes portfolio was 92.4% at September 30, 2019 as compared to 92.3% at December 31, 2018.

Marketable Securities increased 17% or \$16,841,741 during the nine months ended September 30, 2019. This increase was due to a net increase in the fair value of \$15,477,833 and purchases of \$1,363,908.

Mortgages Payable, net of unamortized debt issuance costs, increased 13% or \$44,390,713 during the nine months ended September 30, 2019. This increase was primarily due to new mortgages totaling \$64,257,174, including \$19,407,174 of mortgages assumed in conjunction with acquisitions and amortization expense of \$441,928, partially offset by principal repayments of \$19,566,703 and costs of the new mortgages totaling \$741,686.

Loans Payable, net of unamortized debt issuance costs, decreased 29% or \$31,503,652 during the nine months ended September 30, 2019. This decrease was primarily due to a decrease of \$45 million on our credit facility and a decrease of \$1.2 million in other loans payable, partially offset by an increase of \$8.6 million on our margin loan and an increase of \$6 million on our revolving line of credit secured by the Company's eligible notes receivable.

Liquidity and Capital Resources

The Company's focus is on real estate investments, including investment in rental homes. Additionally, the Company invests in marketable debt and equity securities of other REITs. The REIT securities portfolio provides the Company with liquidity and additional income and serves as a proxy for real estate when more favorable risk adjusted returns are not available. The Company generally limits its marketable securities investments to no more than approximately 15% of its undepreciated assets.

The Company's principal liquidity demands have historically been, and are expected to continue to be, distributions to the Company's stockholders, acquisitions, capital improvements, development and expansions of properties, debt service, purchases of manufactured home inventory and rental homes, investment in marketable securities of other REITs, financing of manufactured home sales and payments of expenses relating to real estate operations. We may also use capital resources to repurchase additional shares of our common stock under our Share Repurchase Program when we believe the stock is trading at a significant discount to net asset value. We anticipate that the liquidity demands of the recent properties acquired will be met by the operations of these acquisitions. The Company's ability to generate cash adequate to meet these demands is dependent primarily on income from its real estate investments and marketable securities portfolio, the sale of real estate investments and marketable securities, refinancing of mortgage debt, leveraging of real estate investments, availability of bank borrowings, lines of credit, proceeds from the DRIP, and access to the capital markets, including proceeds from our recently adopted ATM Program.

In addition to cash generated through operations, the Company uses a variety of sources to fund its cash needs, including acquisitions. The Company may sell marketable securities from its investment portfolio, borrow on its unsecured credit facility or lines of credit, finance and refinance its properties, and/or raise capital through the DRIP and capital markets, including through the Company's recently adopted ATM Program. The Company intends to continue to increase its real estate investments. Our business plan includes acquiring communities that yield in excess of our cost of funds and then investing in physical improvements, including adding rental homes onto otherwise vacant sites. There is no guarantee that any of these additional opportunities will materialize or that the Company will be able to take advantage of such opportunities. The growth of our real estate portfolio depends on the availability of suitable properties which meet the Company's investment criteria and appropriate financing. Competition in the market areas in which the Company operates is significant. To the extent that funds or appropriate communities are not available, fewer acquisitions will be made.

The Company continues to strengthen its capital and liquidity positions. On April 29, 2019, the Company issued and sold an additional 4,000,000 shares, including as a result of the underwriters' exercise in full of their overallotment option of 400,000 shares, of its Series C Preferred at an offering price of \$25.00 per share in an underwritten registered public offering. The Company received net proceeds from the sale of the 4,000,000 shares of Series C Preferred of approximately \$96.7 million, after deducting the underwriting discount and other estimated offering expenses, and intends to use the proceeds for general corporate purposes, which may include purchase of manufactured homes for sale or lease to customers, expansion of its existing communities, potential acquisitions of additional properties and possible repayment of indebtedness on a short-term basis.

The Company also raised \$29,216,685 from the issuance of common stock in the DRIP during the nine months ended September 30, 2019, which included dividend reinvestments of \$5,638,082. Dividends paid on the common stock for the nine months ended September 30, 2019 were \$21,461,113, of which \$5,638,082 were reinvested. Dividends paid on the Series B Preferred shares, the Series C Preferred shares and the Series D Preferred shares for the nine months ended September 30, 2019 totaled \$18,744,771. On August 14, 2019, the Company announced that it has discontinued granting waivers to the \$1,000 monthly maximum for the purchase of shares for cash under its DRIP, which will result in less capital being raised through the DRIP going forward.

Subsequent to quarter end, the Company entered into the ATM Program with B. Riley, under which the Company may offer and sell shares of our Series C Preferred and/or Series D Preferred having an aggregate sales price of up to \$100,000,000. We began selling shares under the ATM Program on October 22, 2019 and through October 30, 2019, 349,767 shares of our Series D Preferred were sold at a weighted average price of \$25.32 per share, generating net proceeds of approximately \$8,714,713, after offering expenses.

Net Cash provided by Operating Activities amounted to \$25,861,909 and \$24,727,484 for the nine months ended September 30, 2019 and 2018, respectively. As of September 30, 2019, the Company had Cash and Cash Equivalents of \$11.1 million, Marketable Securities of \$116.4 million, encumbered by \$40.6 million in margin loan, approximately \$18.3 million available on its revolving credit facilities for the financing of home sales and the purchase of inventory and \$70 million available on our unsecured credit facility, with an additional \$50 million potentially available pursuant to an accordion feature.

As of September 30, 2019, the Company owned 122 communities, of which 47 were unencumbered. Except for 14 communities in the borrowing base for our unsecured credit facility, these unencumbered communities can be used to raise additional funds. Our marketable securities, unencumbered properties, and lines of credit provide the Company with additional liquidity.

As of September 30, 2019, the Company had total assets of \$1,010,152,228 and total liabilities of \$473,517,889. The Company's net debt (net of unamortized debt issuance costs and cash and cash equivalents) to total market capitalization as of September 30, 2019 was approximately 31% and the Company's net debt, less securities to total market capitalization as of September 30, 2019 was approximately 23%. As of September 30, 2019, the Company has no mortgages due in the next 12 months. The Company believes that it has the ability to meet its obligations and to generate funds for new investments.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements.

The forward-looking statements are based on our beliefs, assumptions and expectations of our future performance, taking into account all information currently available to us. Forward-looking statements are not predictions of future events. These beliefs, assumptions and expectations can change as a result of many possible events or factors, not all of which are known to us. Except as required by law, we are not obligated to, and do not intend to, update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Important factors that could cause actual results to differ materially from our expectations include, among others:

- changes in the real estate market conditions and general economic conditions;
